

Who we are

The UN Global Compact (UNGC) provides a principle-based framework and supports companies to operate responsibly and sustainably to create long-term value for their stakeholders and the wider society. By providing practical knowledge, tools, resources, events and training programmes, our ambition is to accelerate and scale the global collective impact of business by upholding the Ten Principles and delivering the Sustainable Development Goals (SDGs) through accountable companies and ecosystems that enable change.

With over **350 participants** and more than **100 events and other engagement opportunities** every year in Switzerland and Liechtenstein, we provide a local multi-stakeholder platform for dialogue, learning, connecting and practical action on different focus areas that align with the Ten Principles of the United Nations Global Compact in the areas of **human rights, labour standards, environment and anti-corruption**.
